Professional History

WA STATE DEPT. OF ARCHAEOLOGY & HISTORIC PRESERVATION

GIS Analyst, 7/2019 – present

- Digitize locational information into ArcGIS SDE databases and capture related data into Microsoft Access databases for archaeological and historical sites and perform continuous data QAQC.
- Perform technical cartographic assignments for DAHP's GIS, services, publications, and presentations.
- Prepare quarterly statewide and annual clip data share deliveries, including geodatabases, MS Access databases, and metadata for agency data share partners.
- Assist with processing archaeological inventory forms and reviewing Forest Practice Applications for spatial conflicts with known cultural resources.

Office Assistant, 8/2018 – 7/2019

- Digitized archaeology survey reports and entered corresponding data into the MS Access database.
- Processed WISAARD applications and set up user access for archaeologists, tribal representatives, and students.
- Directed phone calls from the public and coordinated staff travel and lodging.

SIERRA CLUB

GIS Intern, 6/2017 – 6/2019

- Created spatial data of land transactions for Northern Pacific Railroad land grants in Washington from historic township documents, and designed maps for key years to demonstrate changes in land ownership.

FORTERRA

Resource Lands GIS Intern, 6/2017 – 9/2017

- Built current agriculture and forestry geodatabases for Washington counties from tax parcel data, produced statistics concerning land use and ownership patterns, and published professionally designed, hard-copy maps.

ALL THE BEST PET CARE

Assistant Manager, 8/2016 – 8/2018

- Provided daily direction to team members, trained new hires on store operations and pet nutrition, and conducted check-ins to ensure employee confidence in knowledge and abilities.

Pet Care Specialist, 2/2016 – 8/2016

- Built rapport with customers by providing personalized shopping experiences, assessing their needs, and providing product recommendations.
